

**THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.**

If you have any questions about this notice, please contact the hospital's Privacy Officer at (818) 782-6600.

**WHO WILL FOLLOW THIS NOTICE**

This notice describes our hospital's practices and that of:

- Any healthcare professional authorized to enter information into your hospital chart.
- All departments and units of the hospital.
- Any member of a volunteer group we allow to help you while you are in the hospital.
- All employees, staff and other hospital personnel.

Valley Presbyterian Hospital and all entities, sites and locations follow the terms of this notice. In addition, these entities, sites and locations may share medical information with each other for treatment, payment or healthcare operations purposes described in this notice.

**OUR PLEDGE REGARDING MEDICAL INFORMATION**

We understand that medical information about you and your health is personal. We are committed to protecting medical information about you. We create a record of the care and services you receive at the hospital. We need this record to provide you with quality care and to comply with certain legal requirements. This notice applies to all of the records of your care generated by the hospital, whether made by hospital personnel or your personal doctor. Your personal doctor may have different policies or notices regarding the doctor's use and disclosure of your medical information created in the doctor's office or clinic.

This notice will tell you about the ways in which we may use and disclose medical information about you. We also describe your rights and certain obligations we have regarding the use and disclosure of medical information.

We are required by law to:

- make sure that medical information that identifies you is kept private (with certain exceptions);
- give you this notice of our legal duties and privacy practices with respect to medical information about you; and
- follow the terms of the notice that is currently in effect
- notify you if there is a breach of your unsecured protected health information

**HOW WE MAY USE AND DISCLOSE MEDICAL INFORMATION ABOUT YOU**

The following categories describe different ways that we use and disclose medical information. Unless otherwise stated, these uses and disclosures do not require us to obtain your written authorization. For each category or uses or disclosures we will explain what we mean and try to give some examples. Not every use or disclosure in a category will be listed. However, all of the ways we are permitted to use and disclose information will fall within one of the categories.

**DISCLOSURE AT YOUR REQUEST**

We may disclose information when requested by you. This disclosure at your request may require a written authorization by you.

**FOR TREATMENT**

We may use medical information about you to provide you with medical treatment or services. We may disclose medical information about you to doctors, nurses, technicians, healthcare students, or other hospital personnel who are involved in taking care of you at the hospital. For example, a doctor treating you for a broken leg may need to know if you have diabetes because diabetes may slow the healing process. In addition, the doctor may need to tell the dietitian if you have diabetes so that we can arrange for appropriate meals. Different departments of the hospital also may share medical information about you in order to coordinate the different things you need, such as prescriptions, lab work and x-rays. We also may disclose medical information about you to people outside the hospital who may be involved in your medical care after you leave the hospital, such as skilled nursing facilities, home health agencies, and physicians or other practitioners. For example, we may give your physician access to your health information to assist your physician in treating you.

**FOR PAYMENT**

We may use and disclose medical information about you so that the treatment and services you receive at the hospital may be billed to and payment may be collected from you, an insurance company or a third party. For example, we may need to give your health plan information about surgery you received at the hospital so your health plan will pay us or reimburse you for the surgery. We may also tell your health plan about a treatment you are going to receive to obtain prior approval or to determine whether your plan will cover the treatment. We may also provide basic information about you and your health plan, insurance company or other source of payment to practitioners outside the hospital who are involved in your care, to assist them in obtaining payment for services they provide to you. You have the right to restrict disclosures to insurers if your services are paid in full out-of-pocket.

**FOR HEALTHCARE OPERATIONS**

We may use and disclose medical information about you for healthcare operations. These uses and disclosures are necessary to run the hospital and make sure that all of our patients receive quality care. For example, we may use medical information to review our treatment and services and to evaluate the performance of our staff in caring for you. We may also combine medical information about many hospital patients to decide what additional services the hospital should offer, what services are not needed, and whether certain new treatments are effective. We may also disclose information to doctors, nurses, technicians, medical students, and other hospital personnel for review and learning purposes. We may also combine the medical information we have with medical information from other hospitals to compare how we are doing and see where we can make improvements in the care and services we offer. We may remove information that identifies you from this set of medical information so others may use it to study health care and health care delivery without learning who the specific patients are.

***Appointment Reminders***

We may use and disclose medical information to contact you as a reminder that you have an appointment for treatment or medical care at the hospital.

***Treatment Alternatives***

We may use and disclose medical information to tell you about or recommend possible treatment options or alternatives that may be of interest to you.

***Health-Related Products and Services***

We may use and disclose medical information to tell you about our health-related products or services that may be of interest to you.

***Fundraising Activities***

We may use medical and demographic information, such as your name, address, and phone number and the dates that you received treatment or services at the hospital to raise money for the hospital and its operations. You have the right to opt-out of receiving fundraising communications. If you do not wish to

receive fundraising communications, please call the Fund Development Department 818-902-2235 or send an email to: [info@valleypres.org](mailto:info@valleypres.org).

### ***Health Information Exchange***

We participate in an electronic health information exchange (“HIE”), which allows authorized healthcare providers to appropriately and securely access and share your medical information electronically for medical treatment, payment, healthcare operations, uses that you have specifically authorized, and uses that are required by law. If you do not want your information to be accessed through the HIE, you can “opt out” by completing the HIE Opt-Out Form.

### ***Hospital Directory***

We may include certain limited information about you in the hospital directory while you are a patient at the hospital. This information may include your name, location in the hospital, your general condition (e.g., good, fair, etc.) and your religious affiliation. Unless there is a specific written request from you to the contrary, this directory information, except for your religious affiliation, may also be released to people who ask for you by name. Your religious affiliation may be given to a member of the clergy, such as a priest or rabbi, even if they don’t ask for you by name. This information is released so your family, friends and clergy can visit you in the hospital and generally know how you are doing.

### ***Individuals Involved in Your Care or Payment for Your Care***

We may release medical information about you to a friend or family member who is involved in your medical care. We may also give information to someone who helps pay for your care. Unless there is a specific written request from you to the contrary, we may also tell your family or friends your condition and that you are in the hospital. Similarly, if you are deceased, we may disclose information about your health to a family member or someone involved in your healthcare or payment for your healthcare, when such information is directly relevant to such person’s involvement with your healthcare or payment related to your healthcare, unless this is inconsistent with a previously expressed preference.

In addition, we may disclose medical information about you to an entity assisting in a disaster relief effort so that your family can be notified about your condition, status and location. If you arrive at the emergency department either unconscious or otherwise unable to communicate, we are required to attempt to contact someone we believe can make health care decisions for you (e.g., a family member or agent under a healthcare power of attorney).

### ***Research***

Under certain circumstances, we may use and disclose medical information about you for research purposes. For example, a research project may involve comparing the health and recovery of all patients who received one medication to those who received another, for the same condition. All research projects, however, are subject to a special approval process. This process evaluates a proposed research project and its use of medical information, trying to balance the research needs with patients’ need for privacy of their medical information. Before we use or disclose medical information for research, the project will have been approved through this research approval process, but we may, however, disclose medical information about you to people preparing to conduct a research project, for example, to help them look for patients with specific medical needs, as long as the medical information they review does not leave the hospital.

### ***As Required by Law***

We will disclose medical information about you when required to do so by federal, state or local law.

### ***To Avert a Serious Threat to Health or Safety***

We may use and disclose medical information about you when necessary to prevent a serious threat to your health and safety or the health and safety of the public or another person. Any disclosure, however, would only be to someone able to help prevent the threat.
