

VALLEY PRESBYTERIAN
HOSPITAL

16TH ANNUAL GOLF CLASSIC

Tuesday, October 20, 2026
Moorpark Country Club

SPONSORED BY:

As an independent, nonprofit community hospital, Valley Presbyterian Hospital relies on the generosity of friends, sponsors and community partners to meet urgent local needs with compassion, skill and speed. Every gift made through this tournament helps strengthen the hospital's ability to care for more patients, improve critical care environments and continue delivering high-quality services for families across the San Fernando Valley.

Your support reaches far beyond the course. In 2025, Valley Presbyterian Hospital invested \$34.4 million in community benefit initiatives, reaching nearly 82,000 people and directing almost 60+% of those resources to vulnerable populations. Donations have helped patients get to medical appointments, connected thousands of individuals to health coverage, expanded maternity education and supported timely mental health care during moments of crisis. Through this year's Golf Classic, your generosity helps advance improvements that allow the hospital to serve acute patient needs more efficiently and deliver better care when every moment matters.

When you give, sponsor or participate, you become part of something larger than a single event. You help ensure that children, parents, seniors and families throughout our community have access to lifesaving services close to home. You help sustain a hospital that is vital for access, vital for growth and vital for life. We thank you for standing with Valley Presbyterian Hospital and investing in healthier outcomes for the Valley we all share.

Together, we turn a day on the green into lasting impact for patients and families throughout the San Fernando Valley. Thank you for helping Valley Presbyterian Hospital remain a trusted, independent source of exceptional care for our community.

About Valley Presbyterian Hospital

Valley Presbyterian Hospital first opened its doors over 65 years ago as a small, neighborhood provider. While we remain as independent as we were in 1958, today we have grown into a 350 bed full-service, non-profit community hospital, dedicated to the health and well-being of the diverse and challenged communities of the San Fernando Valley.

Our enduring goal is to be a vital asset to the community because for us, this Valley is not just an area of operation. It is our home. And its people are not just patients. They are our friends, our partners and our community. We build the facilities and services specifically focused on the needs of those in this community. We help patients manage and improve their health by providing access to a wide array of education and support. We serve our patients with respect by listening intently to care more effectively. And we consistently invest in our people, the most vital asset of all, building greater teamwork and communication that raises the quality of care for all our patients.

As a certified Cardiac STEMI Receiving Center, Valley Presbyterian Hospital provides rapid cardiac care within the critical 90-minute window following chest pain onset, with 24/7 intervention and surgery coverage.

Our Primary Stroke Center offers immediate access to neurologists through RP-Lite telemedicine for real-time consultations. Recognized as one of only three Pediatric Medical Centers in the San Fernando Valley, our pediatric specialists deliver advanced care in our PICU. With an Emergency Department Approved for Pediatrics (EDAP) designation, we also offer specialized pediatric teams for emergency care.

At Valley Presbyterian Hospital, we are proud to be vital for access, vital for growth and vital for life.

As a 501(c)(3) charitable organization, we rely on community support. Federal tax ID# 95-1945832.

Redefining What's Possible in Brain Injury Rehabilitation

Recovery isn't always a straight line. It takes persistence, practice and the right support to keep moving forward.

For more than 45 years, Centre for Neuro Skills® has provided intensive, community-based brain injury rehabilitation designed to help patients build greater independence and turn progress in therapy into progress in everyday life.

It's time to Rethink Rehab.
