

14th Annual Golf Classic

Tuesday, October 22, 2024 Moorpark Country Club

SPONSORED BY

As an independent, community hospital, Valley Presbyterian Hospital must be prudent stewards of its resources so we can remain a vital community asset today and well into the future. We do this by focused investment in people, their processes and the critical infrastructure they need to address the most pressing needs in our community.

Proceeds to modernize infrastructure

This year, proceeds from the event will go toward the ongoing modernization of our infrastructure. With original construction of some of our buildings dating back 65 years, updating and upgrading them is an important and necessary part of our operating budget. In addition to continued renovation of our operating rooms, improvements to other critical areas will be possible through your donations. Your contributions are vital to our ongoing mission to improve the health and well-being of the San Fernando Valley.

About Valley Presbyterian Hospital

Valley Presbyterian Hospital first opened its doors over 60 years ago as a small, neighborhood provider. While we remain as independent as we were in 1958, today we have grown into a 350bed full-service, non-profit community hospital, dedicated to the health and well-being of the diverse and challenged communities of the San Fernando Valley.

Our enduring goal is to be a vital asset to the community because for us, this Valley is not just an area of operation. It is our home. And its people are not just patients. They are our friends, our partners and our community. We build the facilities and services specifically focused on the needs of those in this community. We help patients manage and improve their health by providing access to a wide array of education and support. We serve our patients with respect by listening intently to care more effectively. And we consistently invest in our people, the most vital asset of all, building greater teamwork and communication that raises the quality of care for all our patients.

As a certified Cardiac STEMI Receiving Center, Valley Presbyterian Hospital provides rapid cardiac care within the critical 90-minute window following chest pain onset, with 24/7 intervention and surgery coverage. Our Primary Stroke Center offers immediate access to neurologists through RP-Lite telemedicine for real-time consultations. Recognized as one of only three Pediatric Medical Centers in the San Fernando Valley, our pediatric specialists deliver advanced care in our PICU. With an EDAP designation, we also offer specialized pediatric teams for emergency care.

Recently, Valley Presbyterian Hospital was recognized by the Leapfrog Group with a Hospital Safety Grade of "A." We are honored to have achieved this recognition and will continue to get better every day in delivering high-quality, safe care to our patients.

As a 501(c)(3) charitable organization, we rely on community support. Federal tax ID# 95-1945832.

For additional support contact: Evelyn Pacis, Community Relations Manager 818.902.5709 | evelyn.pacis@valleypres.org

alley Breast Care & Women's Health Center

Valley Breast Care was established in 2005 and has been providing state of the art high quality breast cancer screening, diagnostics, and treatment services to women residing in the San Fernando Valley and downtown regions over the last two decades. The center is happy to now offer these same high-quality services to women residing in the Santa Clarita Valley and surrounding areas.

- STATE OF THE ART IMAGING
 3D Mammography, Breast Ultrasound, MRI and CT-PET Imaging services.
- DEDICATED breast radiologists and breast surgeons.
- GENETIC COUNSELING

for breast, ovarian and other cancers provided by certified genetic counselor and breast surgeons

 ACCESS TO NATIONAL CLINICAL TRIALS conducted thru Translational Research in Oncology (TRIOS), a national organization which is locally based at UCLA. The opportunity to advance our understanding of the cellular and molecular alterations which cause breast cancer and other malignancies through the participation in basic science research efforts, which will hopefully benefit future cancer victims.

The center is also one of the largest providers for the State of California Every Women Counts Program (EWC) which provides access to breast and cervical cancer screening services for uninsured or underinsured women at no cost.

Improving healthcare coverage

We want to make healthcare better for everyone by making sure your patients can find the care they need when they need it.

We also want to improve whole health by:

- Detecting health issues earlier.
- Streamlining communication among providers.
- Increasing savings on healthcare spending.
- Closing gaps in care by connecting medical, pharmacy, behavioral health, dental, vision, life, and disability plans.
